The council will serve as positive role models for both Māori and non-Māori students as they demonstrate manaakitanga, rangatiratanga, mana, whanaungatanga and aroha. The Māori Student Leadership Council will meet regularly with staff to ensure the aspirations of our Māori students and their whānau come to fruition. They will lead change within and outside of the school, such as promoting greater use of te reo and tikanga Māori and challenging cultural bias and racism.

## Food Technology Students Connect with Local Community Business

Thanks to the Todd Wayne, the owner of Jellicoe Restaurant and Bar and his head chef, Dan Moore, our Year 11 Food Technology students have been given the opportunity to design and create a new dessert for the restaurants summer menu. Students will gain NCEA credits as they develop their desserts. This is an authentic learning opportunity where students consider, profit, shelf life, presentation, taste, texture, preparation and plating time of their dessert. They spend time trialling their dessert and gaining constant stakeholder feedback, with the aim of creating the winning dessert. When the dessert winner is announced it will then be put on the Jellicoe Restaurant and Bar menu for a month. We hope you will keep it local by making reservations at Jellicoe Restaurant and Bar and enjoy a meal and the winning dessert. Pictured: Te Ata Hassan - Tapuika.
